

T G A A G C A G C T

The image displays a DNA sequence: TGAAGCAGCT. Each letter is a different color: T (red), G (orange), A (green), A (green), G (orange), C (blue), A (green), G (orange), C (blue), T (red). Below the letters are horizontal lines representing base pairing: T pairs with A (green), G pairs with C (blue), A pairs with T (red), A pairs with T (red), G pairs with C (blue), C pairs with G (orange), A pairs with T (red), G pairs with C (blue), C pairs with G (orange), T pairs with A (green).
