

A C C C G T G A G G C A

The image displays a sequence of nine nucleotide bases: A, C, C, C, G, T, G, A, G, G, C, A. Each base is represented by a large, colorful letter. Below each letter is a 3D molecular model of the base, showing its interaction with a red sugar-phosphate backbone and a blue phosphate group. The bases are colored as follows: A (green), C (blue), G (yellow), and T (red).
